SUMMARY

Full-Stack Developer with 3+ years of experience building production web applications, payment systems, and AI-powered platforms. Strong focus on Python (FastAPI, Django), Next.js, TypeScript, PostgreSQL, and CI/CD workflows. Proven track record delivering secure transaction systems processing 1,000+ monthly transactions at 99.9% uptime. Seeking a full-time role on an impactful product team.

SKILLS AND KNOWLEDGE

- **Full-Stack Development:** Python, FastAPI, Django, Next.js, React, TypeScript, JavaScript, GraphQL, REST APIs, HTML5, CSS3, Tailwind CSS
- **Databases & Infrastructure:** PostgreSQL, SQL Server, Docker, Linux, Git, CI/CD pipelines
- **AI & Data:** Machine Learning, Deep Learning, NLP, OpenCV, Keras, Data Mining
- **Engineering Practices:** System design, JWT authentication, API security, code reviews, agile workflows
- **Soft Skills:** Problem-solving, team collaboration, ownership, analytical thinking, adaptability

EXPERIENCE

Oct 2024 – Jan 2026

Lead Full-Stack Developer

AI Ankabot — Full-time | Syria - Remote

- Led end-to-end development of a secure production payment platform, architecting a FastAPI backend with JWT authentication, encryption, and multi-layer security protocols.
- Designed database schemas and API contracts for auditable payment flows, successfully processing 1,000+ transactions per month with 99.9% system availability.
- Built Next.js web interface and PyQt desktop client sharing the same transaction core.

Apr 2023 – Aug 2024

Frontend Developer

LIT-Co - Full-time (Promoted from Intern) | Lebanon - Hybrid / On-site

- Drove web development for the Plaze e-commerce platform (Next.js + GraphQL), leading a full website redesign that improved mobile responsiveness and increased mobile traffic by 40%.
- Implemented core UI components increasing conversion rate by 15% (live at plaze-shop.de), and customized 10+ WordPress themes/plugins to boost user interaction by 20%.
- Participated in agile stand-ups, incremental feature delivery, and production code reviews.

2022 – Apr 2023

Full-Stack Developer

Independent / Freelance | Remote

Selected client and product engagements

- Online shisha shop backend (2022): streamlined checkout and operations, improving customer-service efficiency by 25%.
- Delivered REST APIs and admin tooling for small retail clients under agreed scope and deadlines.

PROJECTS

VoteChain — Decentralized Voting dApp | Mar 2024

- Full-stack Web3 election platform: Solidity smart contracts, IPFS metadata, Next.js + MetaMask integration; 10,000+ votes processed with zero reported integrity issues.
- github.com/ahmad-alhalwany/vote-chain

ASD Early-Detection Platform | 2025

- Full-stack AI screening app: Next.js + FastAPI, OpenCV face detection, Keras emotion models, and XAI behavioral questionnaire (AR/EN).
- Live: autism-spectrum-six.vercel.app · github.com/ahmad-alhalwany/Autism-spectrum

EDUCATION

2017 – 2023

Bachelor of Science in Information Technology (Artificial Intelligence Engineering)

Tishreen University, Syria.

- Degree Status: Officially recognized foreign qualification in Germany (**ZAB certificate available**)

AWARDS & CERTIFICATIONS

- 5th Place — Syrian Cyber Security CTF Competition (2021)
- Participant — ICPC Programming Contest (2020)
- Meta: Introduction to Back-End Development | Introduction to Front-End Development (Coursera)
- DeepLearning.AI: Neural Networks and Deep Learning (Coursera)
- Meta: Programming in Python (Coursera)

LANGUAGES

- English: B2/C1 — Professional working proficiency (fluent in written communication)
- German: A2 — Basic (actively preparing for B1 certification)
- Arabic: Native
