

Ahmad Halwany

AI Application Developer

CONTACT

Trier, Germany
ahmad.s.alhalwany@gmail.com
+49 160 8153791
Born 22.05.1999
EU Chancenkarte holder

LANGUAGES

Arabic
Native
English
B2/C1 – fluent
German
A2 – improving toward B1

SKILLS

AI / ML
Machine Learning, Deep Learning, computer vision (OpenCV, Keras, CNNs), Grad-CAM (explainable AI), NLP, model training & evaluation
Generative AI / LLMs
LLM integration, retrieval-augmented generation (RAG), prompt engineering, embeddings, AI assistants with source citation
Backend & Data
Python (FastAPI, Django), REST APIs, PostgreSQL, SQL; model deployment & serving
Frontend & DevOps
Next.js, React, TypeScript; Docker, Linux, Git, CI/CD

SOFT SKILLS

Product-minded
Independent ownership
Analytical thinking
Fast learner
Clear communication

CERTIFICATES

DeepLearning.AI: ML in Production
DeepLearning.AI: Neural Networks
DeepLearning.AI: Supervised ML

RESUME

Ahmad Halwany

AI Application Developer | ML · LLM/RAG · Full-Stack

PROFILE

AI Application Developer combining a ZAB-recognised Bachelor in AI Engineering with 3+ years of full-stack experience. I build AI products end-to-end - ML, computer vision (OpenCV, Keras, Grad-CAM), NLP, and LLM assistants with retrieval-augmented generation (RAG) - and ship them as production apps (Python/FastAPI, Next.js, PostgreSQL). Flagship: a live AI autism-screening platform at autism-spectrum-six.vercel.app.

CONTACT & LINKS

- Email: ahmad.s.alhalwany@gmail.com · Phone: +49 160 8153791 · Trier, Germany (open to relocate / remote)
- LinkedIn: linkedin.com/in/ahmad-alhalwany · GitHub: github.com/ahmad-alhalwany
- Portfolio: portfolio-xi-opal-35.vercel.app
- Work authorisation: EU Opportunity Card (Chancenkarte) - eligible for fast EU Blue Card conversion.

PROFESSIONAL EXPERIENCE

Lead Full-Stack Developer (AI & Systems) 10/2024 - 01/2026
FinTech · Full-time · Remote

- Owned a secure payment platform end-to-end (FastAPI, PostgreSQL, Docker) processing 1,000+ transactions/month at 99.9% uptime.
- Introduced AI-assisted development workflows (Copilot/Cursor) and automated recurring processes with Python scripting.
- Designed data models, APIs and deployment; applied JWT auth, encryption and security reviews.

Frontend Developer 06/2023 - 08/2024
E-commerce · Full-time (promoted from internship) · Hybrid

- Led a redesign of the 'Plaze' platform (Next.js + GraphQL): +40% mobile traffic, +15% conversion.
- Built reusable UI components and shipped features in an agile team.

Full-Stack Developer (Freelance) 01/2022 - 04/2023
Independent · Remote

- Delivered AI and web projects end-to-end for clients, from architecture to deployment.

AI & SELECTED PROJECTS

ASD Early-Detection Platform (live) 2025
Next.js · FastAPI · Computer Vision · ML · RAG

- Built an end-to-end AI health app with three AI layers: a CNN image classifier (MobileNetV3) with Grad-CAM explainability, an ML behavioural-questionnaire classifier (~92% accuracy), and a RAG assistant.
- RAG: multilingual semantic retrieval (fastembed embeddings + cosine search) over verified medical sources (WHO/CDC), an LLM (Hugging Face) for generation, and source citations with anti-hallucination fallback.
- Full stack: FastAPI serving the models, bilingual (AR/EN) Next.js frontend, privacy-first. Live at autism-spectrum-six.vercel.app.

Blockchain Voting System 2024
Solidity · IPFS · Next.js

- Secure decentralised platform processing 10,000+ votes with end-to-end integrity.

"Ask Ahmad" — Portfolio AI Assistant (live) 2025
LLM · Next.js · TypeScript

- Context-grounded LLM assistant answering recruiter questions from portfolio data, with a multi-provider fallback chain (Groq, Gemini, OpenAI, Mistral, OpenRouter), strict anti-hallucination prompting and bilingual (EN/DE) replies.

EDUCATION

B.Sc. in Information Technology - Artificial Intelligence Engineering 2017 - 2023
Tishreen University · Grade: Good

- Specialisation in AI: machine learning, deep learning, computer vision, NLP, data mining.
- Officially recognised in Germany as a Bachelor-level degree by the ZAB (Ref. LN2025/51605-1).

CERTIFICATES & AWARDS

- DeepLearning.AI: Neural Networks · ML in Production · Supervised ML. Meta: Python · Back-End. IBM: Software Engineering. · 5th place - Syrian Cyber Security CTF (2021).
