Born 22.05.1999
EU Chancenkarte holder

LANGUAGES

Arabic
Native

English
B2/C1 – fluent

German
A2 – improving toward B1

SKILLS

Languages & Frameworks
Python (FastAPI, Django),
TypeScript, JavaScript, React,
Next.js, Node.js, HTML5, CSS3,
Tailwind

Databases & DevOps
PostgreSQL, MongoDB, SQL
Server, Docker, Linux, Git,
CI/CD

APIs & Security
REST, GraphQL, JWT
authentication, encryption, API
security, system design

AI & Web3
Machine Learning, Deep
Learning, OpenCV, Keras,
Solidity, IPFS

SOFT SKILLS

Independent ownership
Problem-solving
Analytical thinking
Fast MVP delivery
Adaptability

CERTIFICATES

Meta: Back-End & Front-End
Dev

DeepLearning.AI: ML in
Production

IBM: Software Engineering

CURRICULUM VITAE

Ahmad Halwany

Full-Stack Developer / Engineer | Python · Next.js · TypeScript

PROFILE

Full-stack developer with 3+ years shipping production web applications, secure payment systems and AI-powered platforms end-to-end. I own features from architecture and APIs to polished UI and deployment. Specialised in Python (FastAPI, Django), Next.js, TypeScript and PostgreSQL, with Docker and CI/CD. Proven record of delivering systems handling 1,000+ transactions per month at 99.9% uptime. ZAB-recognised Bachelor-level IT degree (AI).

CONTACT & LINKS

- ▶ Email: ahmad.s.alhalwany@gmail.com · Phone: +49 160 8153791 · Trier, Germany
- ▶ LinkedIn: linkedin.com/in/ahmad-alhalwany
- ▶ GitHub: github.com/ahmad-alhalwany · Portfolio: portfolio-xi-opal-35.vercel.app
- ▶ Work authorisation: EU Opportunity Card (Chancenkarte) — eligible for fast EU Blue Card conversion.

PROFESSIONAL EXPERIENCE

Lead Full-Stack Developer

FinTech · Full-time · Remote

- ▶ Delivered a secure payment platform processing 1,000+ transactions/month at 99.9% uptime, by architecting a FastAPI backend with JWT authentication, encryption and multi-layered security.
- ▶ Enabled auditable payment flows by designing normalised PostgreSQL schemas and versioned REST API contracts.
- ▶ Reduced deployment time and improved reliability by containerising services with Docker and maintaining CI/CD pipelines.
- ▶ Shipped a unified product by building a Next.js web app and a PyQt desktop client on one transaction core.

Frontend Developer

E-commerce · Full-time (promoted from internship) · Hybrid

- ▶ Increased mobile traffic by 40% by leading a full mobile-first redesign of an e-commerce platform (Next.js + GraphQL).
- ▶ Raised the conversion rate by 15% by implementing optimised, reusable UI components.
- ▶ Accelerated prototyping by ~30% by introducing AI-assisted workflows (Copilot/Cursor) into the team.

Full-Stack Developer (Freelance)

Independent clients · Remote

- ▶ Improved customer-service efficiency by 25% by optimising an e-commerce checkout flow.
- ▶ Enabled faster operations by building REST APIs and admin tools for small retail clients.

SELECTED PROJECTS

Payment Transfer System

Next.js · FastAPI · PostgreSQL · Docker

- ▶ Multi-branch payment system with role-based access control, JWT auth and PDF receipts; live demo + code on GitHub.

ASD Early-Detection Platform

Next.js · FastAPI · OpenCV · Keras

- ▶ AI-powered screening app (Arabic/English) that classifies input data; live at autism-spectrum-six.vercel.app.

VoteChain — Blockchain Voting

Solidity · IPFS · Next.js · MetaMask

- Processed 10,000+ votes on a decentralised Web3 voting platform.

EDUCATION

B.Sc. in Information Technology — Artificial Intelligence Engineering

Grade: Good

- Officially recognised in Germany as a Bachelor-level degree by the ZAB (Ref. LN2025/51605-1).

CERTIFICATES & AWARDS

- Meta (Coursera): Programming in Python · Back-End · Front-End · HTML & CSS · Version Control.
- DeepLearning.AI: Neural Networks · ML in Production. IBM: Software Engineering. Google: Networking · IT Support.
- 5th place — Cyber Security CTF (2021) · Participant — ICPC programming contest (2020).

LANGUAGES

- Arabic — Native · English — B2/C1 (professional) · German — A2, progressing toward B1
