

Ahmad Halwany  
Full-Stack Developer

## CONTACT

Trier, Germany  
ahmad.s.alhalwany@gmail.com  
+49 160 8153791  
Born 22.05.1999  
EU Chancenkarte holder

## LANGUAGES

**Arabic**  
Native  
**English**  
B2/C1 – fluent  
**German**  
A2 – improving toward B1

## SKILLS

**Languages & Frameworks**  
Python (FastAPI, Django),  
TypeScript, JavaScript, React,  
Next.js, Node.js, HTML5,  
CSS3, Tailwind

**Databases & DevOps**  
PostgreSQL, MongoDB, SQL  
Server, Docker, Linux, Git,  
CI/CD

**AI & Web3**  
Machine Learning, Deep  
Learning, OpenCV, Keras,  
Solidity, IPFS

**APIs & Security**  
REST, GraphQL, JWT auth,  
API security, system design

## SOFT SKILLS

Problem-solving  
Teamwork & ownership  
Analytical thinking  
Adaptability  
Clear communication

## CERTIFICATES

Meta: Back-End & Front-End  
Dev  
DeepLearning.AI: Neural  
Networks  
IBM: Software Engineering

# Ahmad Halwany

Full-Stack Developer | Python · Next.js · TypeScript

## PROFILE

Full-stack developer with 3+ years of experience shipping production web apps, payment systems and AI-powered platforms end-to-end. Strong focus on Python (FastAPI, Django), Next.js, TypeScript, PostgreSQL and CI/CD workflows. Proven record delivering secure transaction systems handling 1,000+ transactions per month at 99.9% uptime. Seeking a full-time role in a product-focused engineering team.

## CONTACT & LINKS

- Email: ahmad.s.alhalwany@gmail.com · Phone: +49 160 8153791
- LinkedIn: linkedin.com/in/ahmad-alhalwany
- GitHub: github.com/ahmad-alhalwany · Portfolio: portfolio-xi-opal-35.vercel.app
- Work authorisation: EU Chancenkarte (eligible to switch to EU Blue Card upon a qualifying offer).

## PROFESSIONAL EXPERIENCE

### Lead Full-Stack Developer 10/2024 – 01/2026

AI Ankabot — Full-time · Syria (Remote)

- Led end-to-end development of a secure payment platform; designed the FastAPI backend with JWT authentication, encryption and multi-layered security protocols.
- Designed database schemas and API contracts for auditable payment flows; processed 1,000+ transactions per month at 99.9% uptime.
- Built the Next.js web interface and a PyQt desktop client on top of the same transaction core.

### Frontend Developer 04/2023 – 08/2024

LIT-Co — Full-time (promoted from intern) · Lebanon (Hybrid)

- Led web development for the e-commerce platform “Plaze” (Next.js + GraphQL), including a full redesign that increased mobile traffic by 40%.
- Implemented core UI components that raised the conversion rate by 15% (live at plaze-shop.de); customised 10+ WordPress themes/plugins (+20% engagement).
- Took part in agile stand-ups, incremental delivery and code reviews.

### Full-Stack Developer (Freelance) 2022 – 04/2023

Independent · Remote

- Optimised an e-commerce checkout, improving customer-service efficiency by 25%.
- Built REST APIs and admin tools for small retail clients.

## SELECTED PROJECTS

### Payment Transfer System

Next.js · FastAPI · PostgreSQL · Docker

- Multi-branch payment system with JWT auth, role dashboards and PDF receipts. Live demo + code on GitHub.

### ASD Early-Detection Platform 2025

Next.js · FastAPI · OpenCV · Keras

- AI-powered screening application (Arabic/English). Live at autism-spectrum-six.vercel.app.

### VoteChain — Blockchain Voting 2024

Solidity · IPFS · Next.js · MetaMask

- Decentralised Web3 voting platform processing 10,000+ votes.

## EDUCATION

---

### **B.Sc. in Information Technology – Artificial Intelligence Engineering**

2017 – 2023

*Tishreen University, Latakia, Syria — Grade: Good*

- Officially recognised in Germany as a Bachelor-level degree by the ZAB (Reg.-No. LN2025/51605-1).

## AWARDS & CERTIFICATES

---

- 5th place — Syrian Cyber Security CTF (2021); participant — ICPC (2020).
- Meta (Coursera): Programming in Python, Intro to Back-End, Intro to Front-End, Version Control.
- DeepLearning.AI: Neural Networks and Deep Learning, Machine Learning in Production.
- IBM: Introduction to Software Engineering. Google: Technical Support Fundamentals, Computer Networking.
